

Welcome

I wanted to take a few moments to welcome back all of our returning Scout families and to welcome for the first time our new families and their Scouts.

This is a very exciting year. This year, the Cub Scout program has undergone a very significant adaptation of its program. In order to adjust for this change, many of our traditional events have been modified or moved to help our Scouts complete the Adventures needed for their Rank Advancement. Please check the latest version of the pack calendar or on this website for the most up to date information.

One of the most significant changes is that our Wolf and Bear Scouts need to participate in either camping with their families or with the Pack. For this reason, we have added a Pack campout to this fall's schedule. This campout will be at the group site at Little Bennett Regional park starting FRIDAY evening October 2nd. Meals (Friday dinner, Saturday breakfast) will be organized and prepared as a pack – so that is one less thing for many of our families to worry about.

We also have tremendous resources available to us if your family needs help with tents or other camping gear, let us know so we can help you.

The final details, menu, and final cost will be coming soon. Our camp master for this event is Jim Jiron.

Our Webelos and Tiger families are also encouraged to join us for the campout, or at the very least our Friday night campfire.

I hope to see you all there.
